

**AV MEDIA EVENTS has joined forces with YVENTECH and RENTAL PRO,  
henceforth offering an even wider variety of services**

**Prague, 1.9.2020 – AV MEDIA EVENTS is consolidating its position on both the Czech and the international markets. On September 1, 2020, AV MEDIA EVENTS merges with its sister company YVENTECH, a rental equipment and services provider best known for their work on outdoor and sports events. Earlier this year, YVENTECH absorbed Rental Pro, popular mostly in the music and touring industry for its experience with providing audio and lighting solutions to concert tours and the largest Czech festivals. Thanks to the shared know-how of these companies, AV MEDIA EVENTS provides the widest range of audiovisual services in the country, offering solutions for company meetings, galas, exhibitions, conferences, congresses, sports events, concerts and even festivals.**

“The fact that we needed to maintain operability in these times of significant shifts and changes of the market has only catalyzed our long-term effort to create one strong partnership, capable of providing its clients with technical solutions on the entire spectrum of their requirements,” comments AV MEDIA EVENTS (AVME) COO and CSO Jan Kubinec. “Together we will consolidate our position in the international field of AV services and accelerate our creativity and innovation into new types of events on the domestic market. We will do our best to reignite our clients’ interest in creating and organizing meaningful and captivating events with us. I believe that our clients will recognize us as first-class providers of AV services, not only for the high quality of our solutions but also for our ability to adapt to the harsh environment of the shift towards hybrid events.”

The merging of these three companies will create a one-stop-shop for clients, providing them with complete, high-quality services for any type of event. AVME is most known for its AV solutions for congresses and conferences. The unification and sharing of know-how will strengthen the company particularly in the field of outdoor events, concerts and festivals. AVME offers a wide variety of proprietary, unique technologies, as well as many years of both domestic and international AV experience, and the capacity to provide its clients with tailor-made events, from start to finish.

*AV MEDIA EVENTS, a.s. is the top provider of audiovisual services for business events in the Czech Republic. AVME has a more than 20-year-old tradition of keeping up with the newest technologies on the international market. Thanks to its partner companies abroad (BRILL AV MEDIA SP. Z O.O. in Poland and Brill Audio Visual Ltd in Hungary) and membership in international alliances (AV Alliance and*

*Congress Rental Network.), it is the largest group in its field in Central Europe. AVME is the sister company of AV MEDIA, a.s. which offers fixed installations and integration of AV technologies. The separation of the two companies occurred in September 2018, with the goal of improving services in different fields. Both companies belong to the Visual Communication a.s. holding.*
